

Clinical-first EHR and Medical Billing

Unified primary care technology empowering clinical and financial health

Seamless clinical and financial workflows from pre-visit to bill resolution to help you get paid more, faster.

Focus on delivering phenomenal patient care

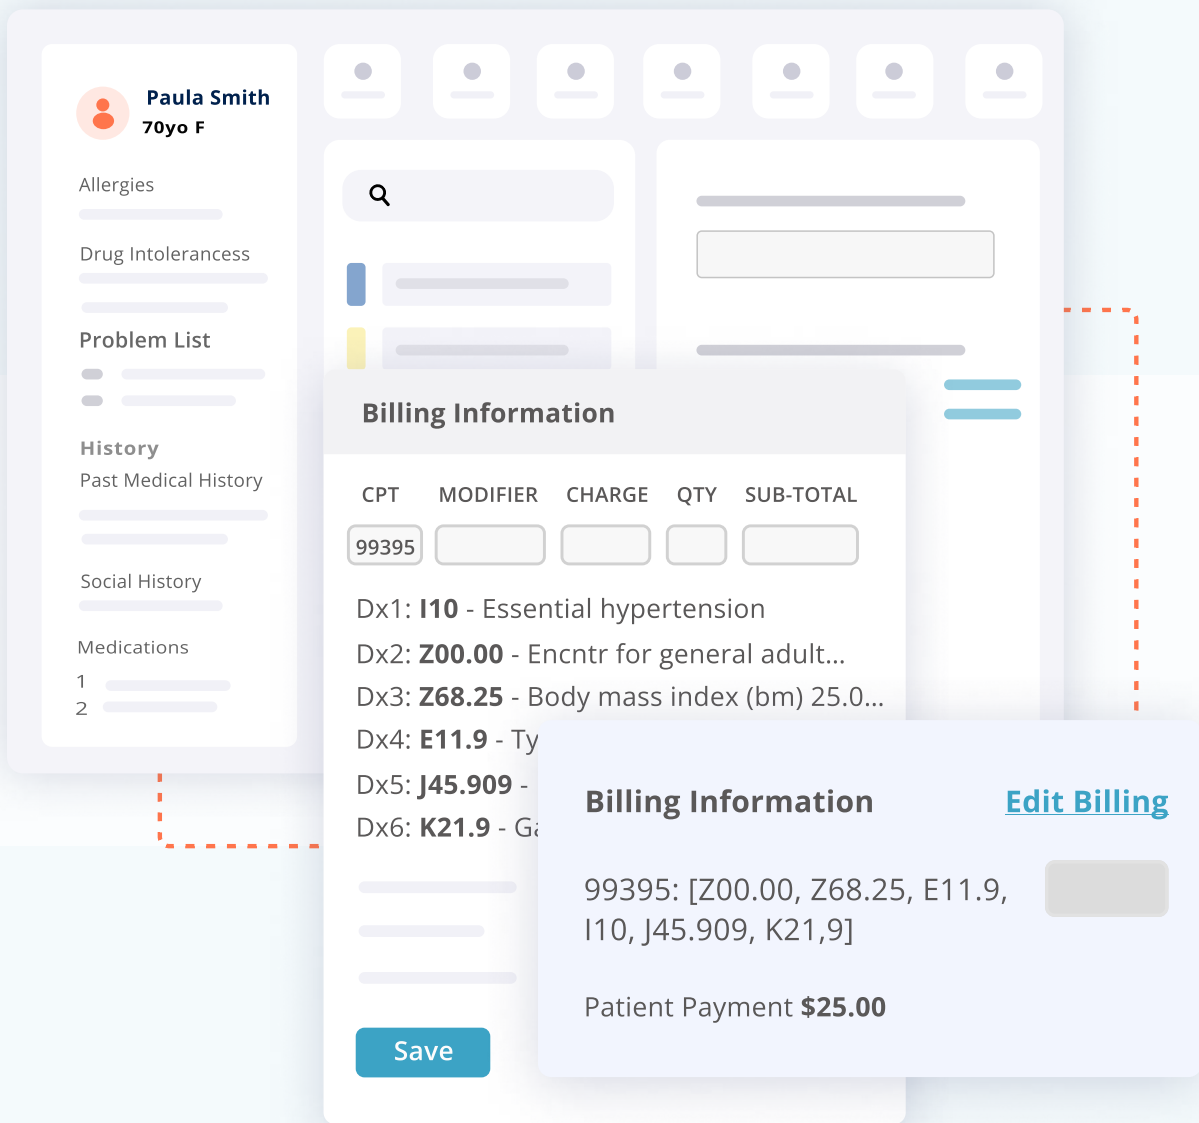

Unified clinical EHR documentation, clinical connectivity, and medical billing workflows give you the freedom to focus on delivering phenomenal patient care while maximizing reimbursement.

Simple, intuitive clinical-first EHR

Interactive charting technology purpose-built to enable, not disrupt, the craft of medicine and bring back the joy of practice. Take back your pajama time with one-click clinical integration.

Get paid fairly for the care you deliver

Easy-to-use front office and billing tools to verify eligibility, prevent denials, and confidently submit clean claims to maximize cash flow.

Empower patients to manage care with in-person and virtual appointment self-scheduling

Engage patients with automated reminders and notifications, pre-visit payment collection

Before the visit

Collect accurate clinical and financial information before the visit with electronic intake forms

Prevent denials with automated pre-visit insurance and benefit coverage eligibility

Seamless, one-click in-chart virtual care workflow - no login or app download

Intuitive charting, ePrescribing, eOrders, templated notes, clinical reminders, and referrals

During the visit

Pre-claim edit checks and clearinghouse claim submission

Electronic + paper statements, inbound patient call center, patient payment posting

After the visit

Claim tracking + follow-up, rejection + denial rebilling, and ERA/EOB payment posting

Easy, intuitive clinical and financial workflows and tools.
